

Guardian® Slime Inhibitor

Slime is a leading cause of ice machine breakdowns and biological growth is a health concern.

Manitowoc's exclusive Guardian® Accessory is patented technology that releases chlorine dioxide on a controlled basis to inhibit

the growth of bacteria and fungi that form slime and cause odors in the food zone of ice machines.

It is not uncommon to perform a monthly manual cleaning of an ice machine to remove slime. Professional cleaning will typically cost \$160 on average. Manitowoc's Guardian can extend slime cleaning effectiveness by up to six times the normal frequency... six months instead of one. The Guardian sachet housing is built into every S-Series ice machine.

Sachet Refill Features

- EPA registered as a slime inhibitor; FDA approved, and NSF listed to standard 12 
- The sachet active ingredient is contained in a breathable tyvek sachet and packaged within a foil outer-wrap
- Ready to use formula. No mixing required. Simply remove sachet packet from foil outer-wrap and insert into Guardian holder
- No moving parts; no mechanical parts
- Will not affect ice produced or alter taste of beverages served
- Will not harm plastic or stainless steel
- Recommended change out frequency – 30-day replacement for maximum slime inhibitor effectiveness

Ice Machine Model (S-Series)	200 Gram Ice Sentry Sachet
300, 322, 422, 450, 500	Use 1
600, 850, 1000, 1200, 1400, 1600, 1800	Use 1 or 2*

*Although one sachet is recommended, extreme conditions may necessitate using two sachet packets.

Guardian Ice Sentry Sachet Refill - K-00206

Sachet refill size 200 gram. Sachet packet(s) requires replacement every 30 days.

Precautionary Statements

- Hazardous to humans and domestic animals. Caution: Causes moderate eye irritation. Harmful if swallowed, inhaled or absorbed through the skin. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling.
- Environmental Hazards - This product is toxic to fish and aquatic organisms.
- Storage and Disposal - Do not contaminate water, food or feed by storage or disposal. Store in a cool, dry, well-ventilated area.
- Physical or Chemical Hazards - Do not mix with acids or chlorine. Do not store at elevated temperatures. Discard used sachet in trash.
- Not for use in conjunction with rust and stain water treatments.

Initial Installation

When installing a Guardian accessory for the first time, thoroughly clean and sanitize the ice machine and bin/dispenser following Manitowoc's cleaning instructions. Note: The Guardian will not control mineral or other water borne build-up. Mineral build-up must be removed as often as necessary to ensure trouble-free operation of the ice machine.

Use Instructions - Replacing Sachet

1. Swing open front door panel of ice machine.
2. Remove and discard spent sachet packets.
3. Remove sachet from foil package and install into holder. Removing the foil packet allows the moisture in the air to activate the packet contents.
4. Close front door panel of ice machine.
5. Discard used sachet in trash.
